REMARKS

Applicant's representative appreciates the Examiner having taking time out his busy schedule on June 23, 2006 to discuss the amendments submitted in the Reply to Final Office Action filed on May 2, 2006 and his acknowledgment that the amendments will now be entered. As instructed by the Examiner, I am submitting the amendments again in a Supplemental Reply with additional corrections to claims 1, 13, 14, and 21 to address minor informalities. In claim 1, the limitation "optimal display set" has been removed from line 7. In claim 13, the status has been changed to "Previously Presented". In claim 14, "provide" has been changed to "provides". In claim 21, "a single optimal display set view" has been changed to "the single optimal display set view".

Claims 1, 2, 4-15, 17-22 and 24-31 are currently pending in the subject application and are presently under consideration. Claims 1, 9, 14, 21, 27 and 30 have been amended as shown at pages 2-7 of the Reply. In addition, claims 5-8 and 23-26 have been cancelled. Applicants' representative appreciates the Examiner's acknowledgement that claims 14, 15 and 17-20 are allowed and claims 8 and 26 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Independent claim 1 has been amended to recite limitations of claim 8 along with all limitations from intervening claims. Independent claim 21 has been amended to recite limitations of claim 26 along with all limitations from intervening claims. Independent claim 30 has been amended to recite allowable limitations from independent claim 14. Claims 9 and 27 have been amended to align with amendments to the independent claims and claim cancellations.

In view of at least the foregoing, it is believed the application is in condition for allowance - a prompt action to such end is earnestly solicited.

Favorable reconsideration of the subject patent application is respectfully requested in view of the comments and amendments herein.
